Summary of Test Results

Total Test Cases: 2

Passed: 2

Failed: 0

Pass %: 100%

Conclusion and Recommendations

Pass Rate: 100% — Login module functioning as expected.

Both test scenarios passed successfully. The Instagram login feature correctly authenticates users with valid credentials and displays an appropriate error message when an incorrect password is entered. No functional issues were observed during this round of testing.

Bug Reports

No bugs were found during this testing cycle — both scenarios (valid login and invalid password) produced the expected results.
