Module Name: Meesho Shopping App - Home, Search, Product & Checkout Test Cases
Test Case ID: mt_01
Tester Name: Aman Sevak
App/Platform: Meesho App (Android)

Scenario ID: 1a

Scenario: Home page loads with search bar, categories and banners
Test Steps:

1. Open Meesho app
2. Observe home page

Screenshots:

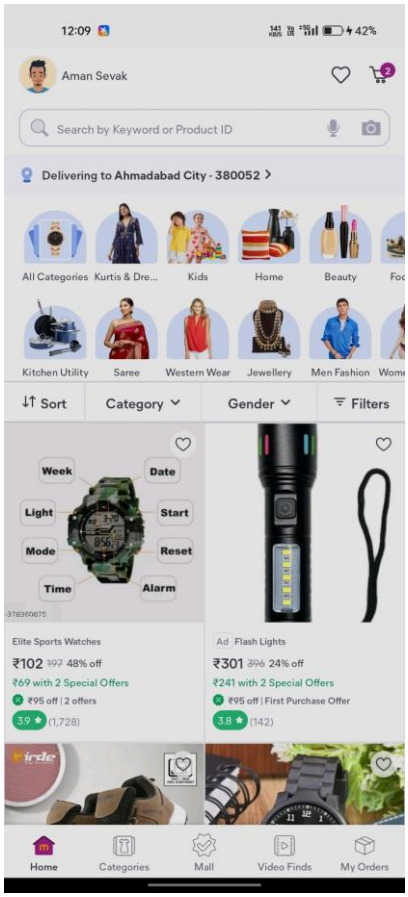

Scenario ID: 1b

Scenario: Delivery address displayed correctly on home page
Test Steps:

1. Open home page
2. Check location bar

Screenshots:

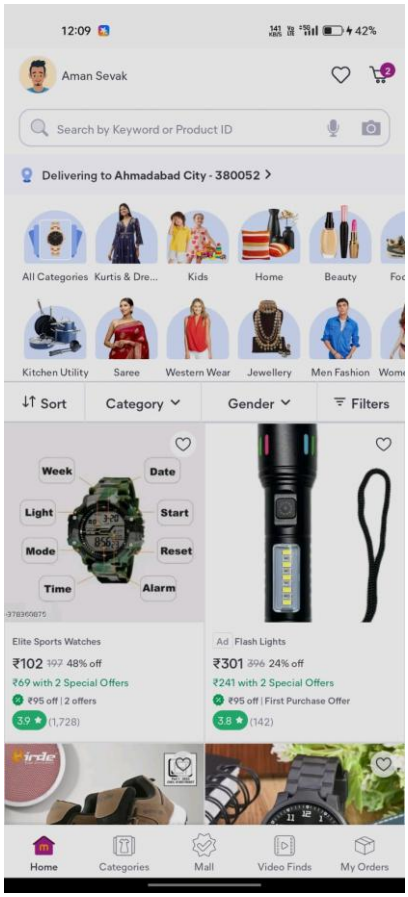

Scenario ID: 1c

Scenario: User profile/greeting displayed on home page

Test Steps:

1. Open home page
2. Observe top of screen

Screenshots:

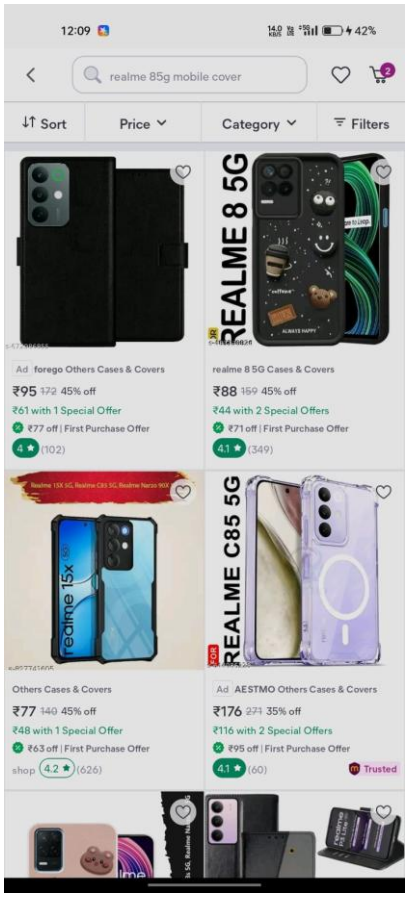

Scenario ID: 2a

Scenario: Search results load for a valid keyword

Test Steps:

1. Tap search bar
2. Type product keyword "realme 85g mobile cover"
3. Submit search

Screenshots:

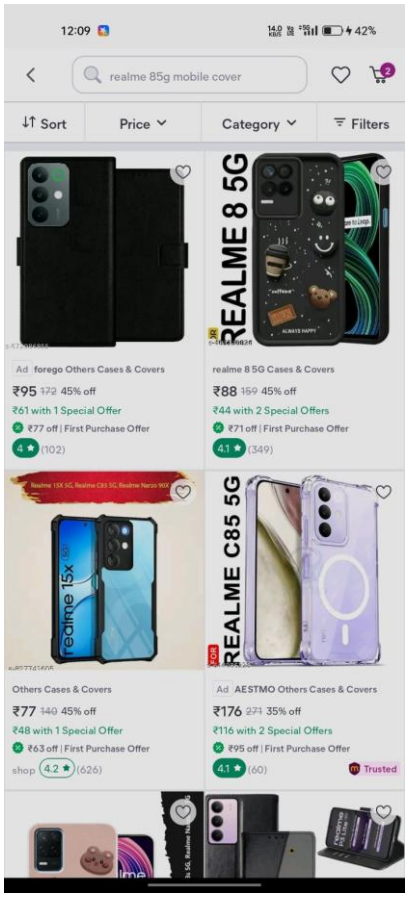

Scenario ID: 2b

Scenario: Search results page provides sort and filter options

Test Steps:

1. Perform a search
2. Observe toolbar below search bar

Screenshots:

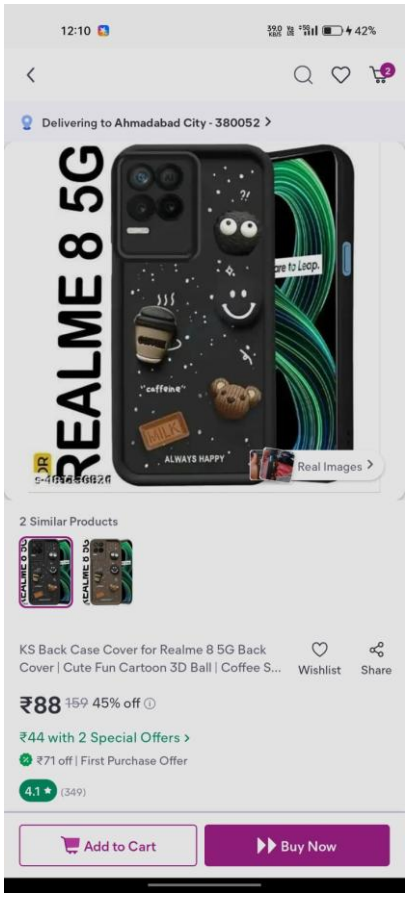

Scenario ID: 3a

Scenario: Product detail page displays price, discount and rating correctly

Test Steps:

1. Tap on a product from search results
2. Observe product page

Screenshots:

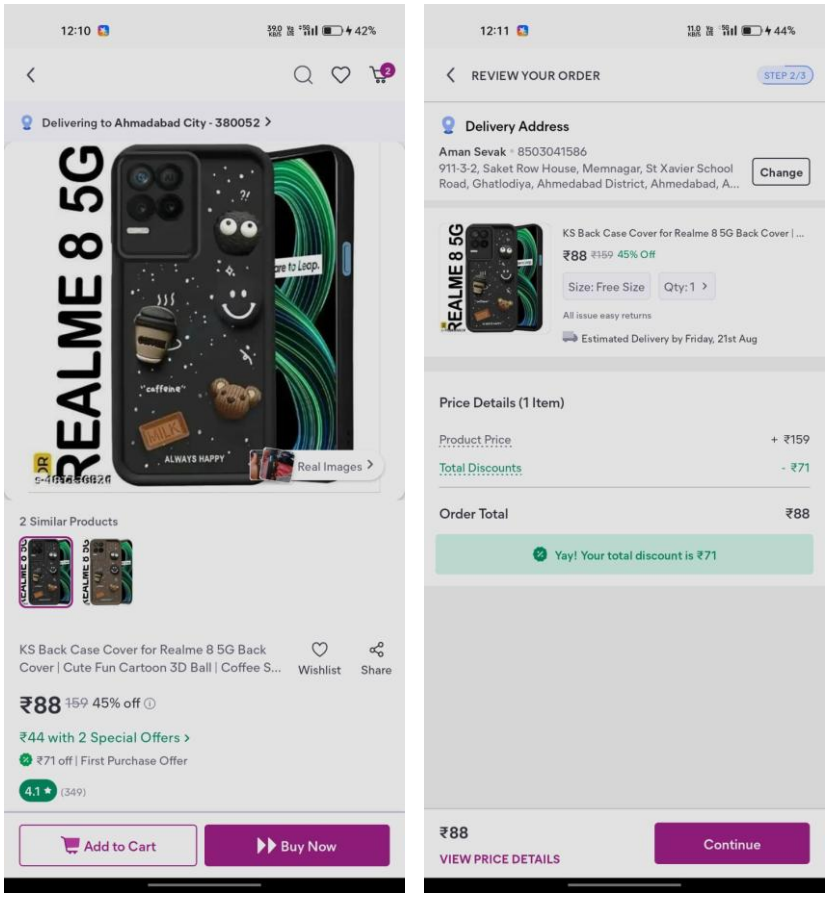

Scenario ID: 3b

Scenario: Special offer price shown on product page matches checkout total

Test Steps:

1. Note the "with 2 Special Offers" price on the product page
2. Proceed to Review Order page
3. Compare with Order Total

Screenshots:

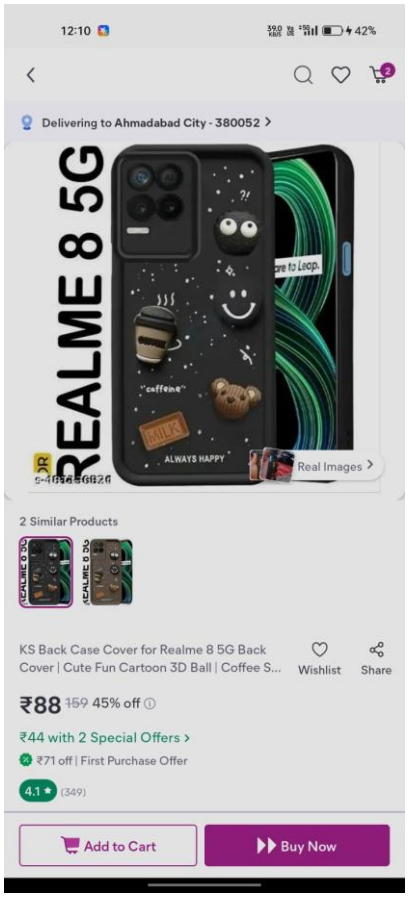

Scenario ID: 3c

Scenario: Add to Cart / Buy Now buttons functional

Test Steps:

1. Open product detail page
2. Observe action buttons

Screenshots:

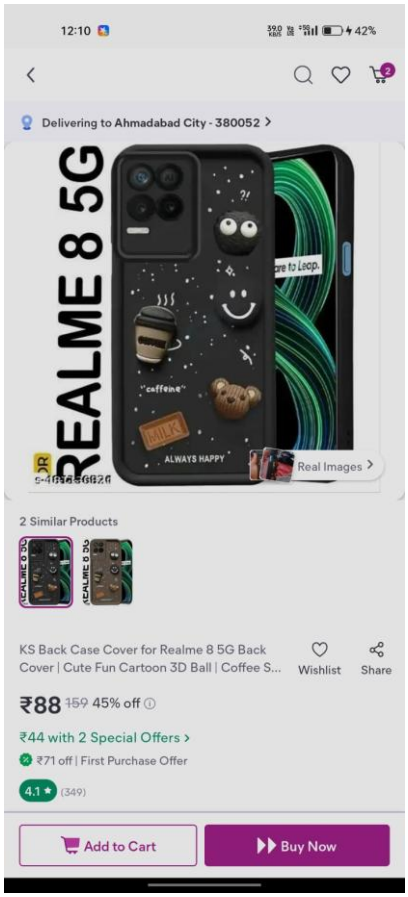

Scenario ID: 3d

Scenario: Similar products section displayed on product detail page

Test Steps:

1. Open product detail page
2. Observe below main product image

Screenshots:

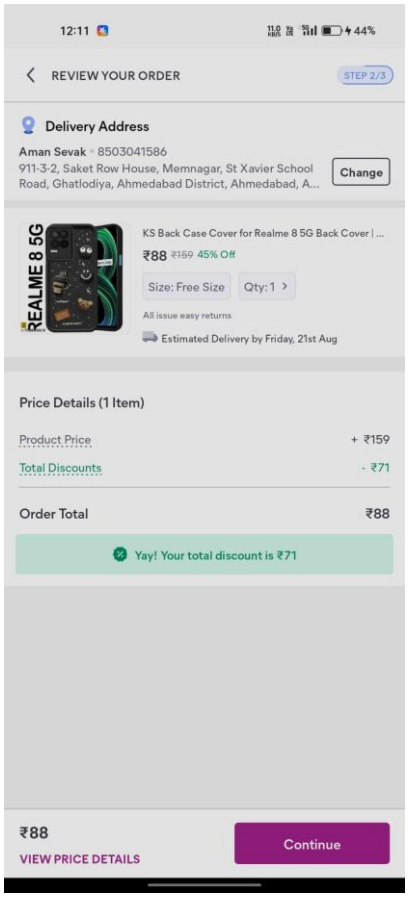

Scenario ID: 4a

Scenario: Review Order page displays correct product, size and quantity

Test Steps:

1. Tap Buy Now
2. Proceed to Review Order page

Screenshots:

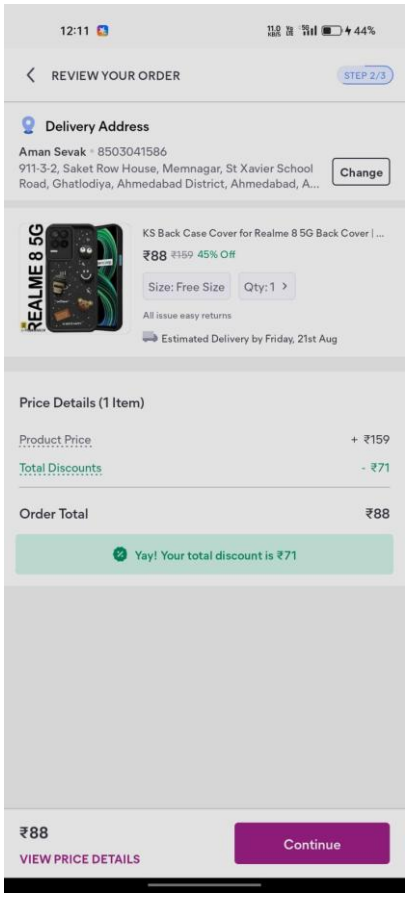

Scenario ID: 4b

Scenario: Delivery address shown with option to change

Test Steps:

1. Open Review Order page
2. Observe delivery address section

Screenshots:

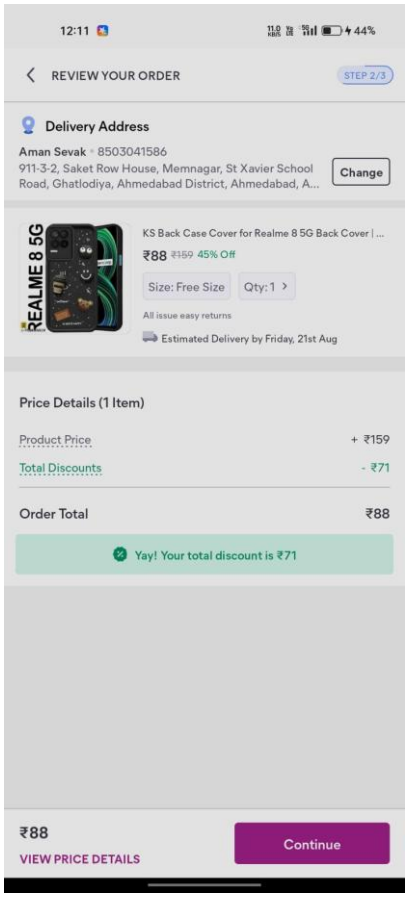

Scenario ID: 4c

Scenario: Estimated delivery date displayed

Test Steps:

1. Open Review Order page
2. Observe delivery estimate under product

Screenshots:

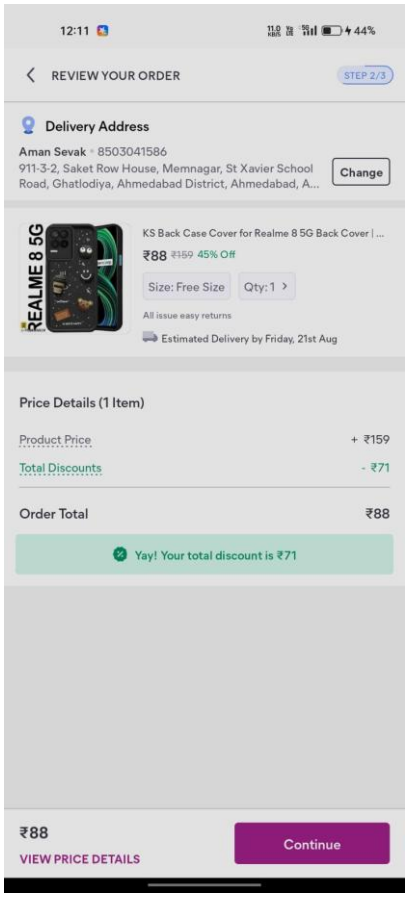

Scenario ID: 4d

Scenario: Price Details breakdown matches Order Total

Test Steps:

1. Open Review Order page
2. Observe Price Details section

Screenshots:

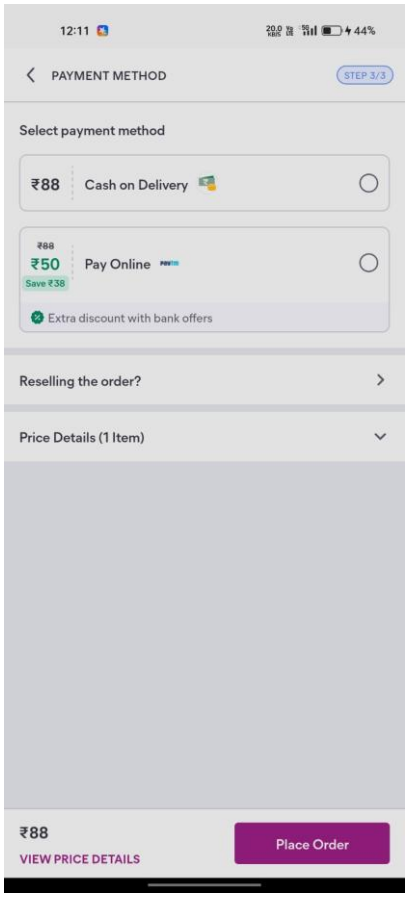

Scenario ID: 5a

Scenario: Payment page displays both COD and Pay Online options with pricing

Test Steps:

1. Tap Continue on Review Order page
2. Observe Payment Method page

Screenshots:

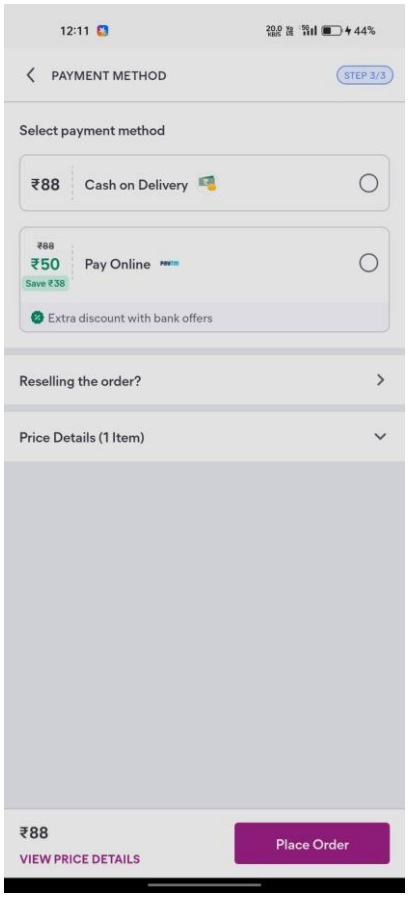

Scenario ID: 5b

Scenario: Reselling and Price Details options accessible on payment page

Test Steps:

1. Open Payment Method page
2. Observe options below payment methods

Screenshots:

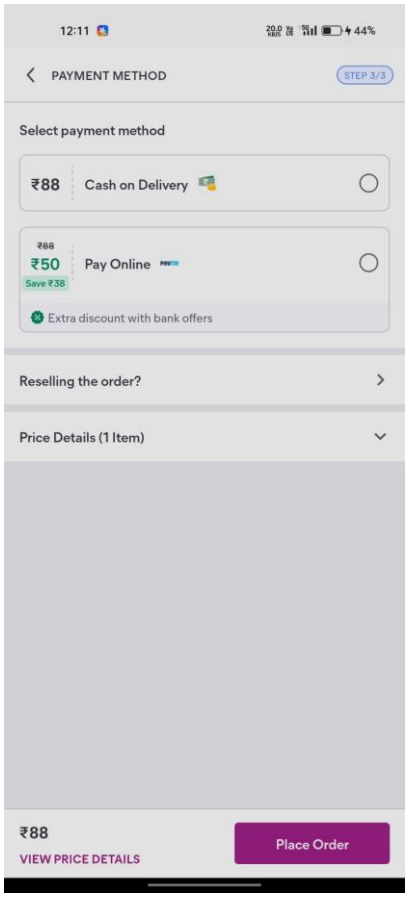

Scenario ID: 5c

Scenario: Place Order button available

Test Steps:

1. Select a payment option
2. Observe action button

Screenshots:

Summary Of Test Results:

Total Test Cases- 16
Passed- 15
Failed- 1
Pass %- 93.75%

Conclusion and Recommendations:

Pass Rate: 93.75%, Good with a Minor Issue

Issues Found

Special Offer Price Not Applied at Checkout (3b) The product page advertised a lower price of ₹44 "with 2 Special Offers", but the Review Order page showed an Order Total of ₹88 (only the ₹71 First Purchase Offer applied), with no explanation on the checkout screens of what the 2 special offers required.

Recommendations

Clarify Conditional Special Offers Either apply the advertised special-offer price automatically when its conditions are met, or clearly state on the product and checkout pages what steps (e.g., specific bank card, coupon code) are needed to unlock it, so the price shown at checkout is not lower than what the customer was led to expect.

Bug Reports:

1.

Field	Description
Bug ID	BUG-3b
Title	Advertised special-offer price not applied or explained at checkout
Module	Product Detail / Review Order
Severity	Low
Steps to Reproduce	1. Open a product detail page showing a "with 2 Special Offers" price 2. Tap Buy Now 3. Proceed to the Review Order page 4. Compare the Order Total with the special-offer price shown earlier

Expected Result	Order Total should reflect the lowest advertised price once its conditions are met, or the page should clearly explain what additional steps are required
Actual Result	Order Total showed ₹88 (base price minus the ₹71 First Purchase Offer only); the ₹44 special-offer price was not applied and no explanation of the required 2 special offers was shown
