SILVER OAK UNIVERSITY

TUTORIAL - 5 : Defect Reporting

Aim: Apply defect identification and prepare professional bug reports including severity, priority, screenshots, and reproduction steps.

Description: This practical focuses on identifying defects (if any) and preparing professional test cases & bug reports for the BookMyShow website (Movie booking flow – Ahmedabad). Functional and UI test cases were designed and executed covering home page, sign-in modal, movie details, show selection, seat quantity, F&B add-ons, contact details, and payment options.

Module Name: BookMyShow Movie Booking - Functional & UI Test Cases

Test Case ID: BMS_TC_01

Webpage URL: https://in.bookmyshow.com/explore/home/ahmedabad

Environment: Desktop Browser (Chrome) | Location: Ahmedabad | Stable Internet

Tester Name: Aman Sevak

TEST CASES

Scenario ID: 1a

Scenario: Load BookMyShow home page for Ahmedabad and view recommended movies

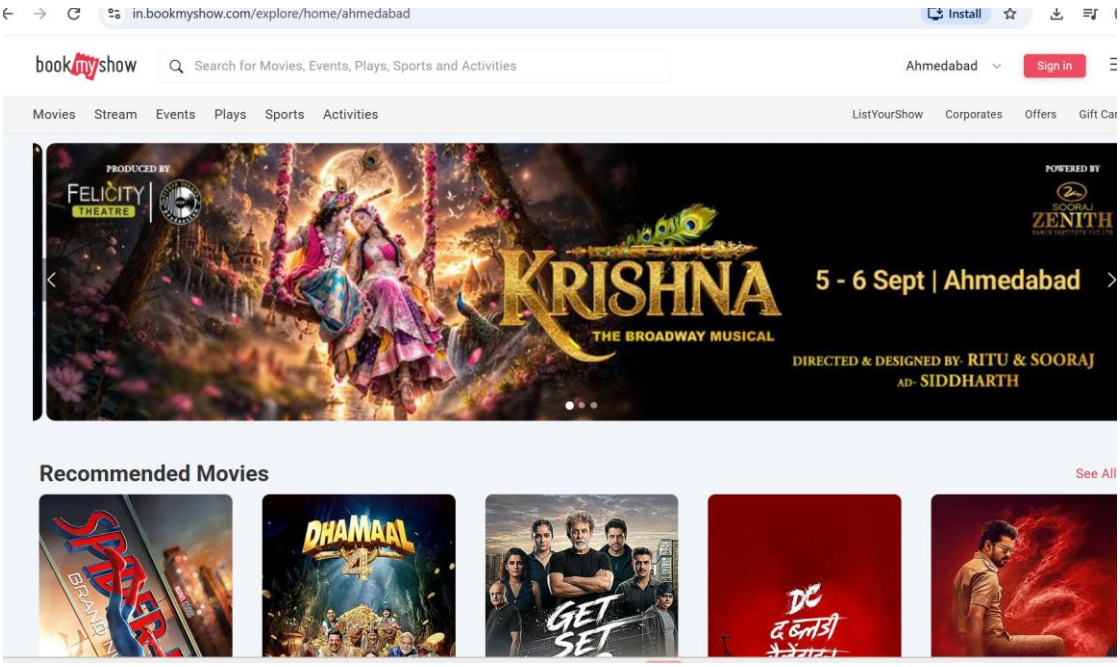

Test Steps:

1. Open https://in.bookmyshow.com
2. Ensure location is Ahmedabad
3. Observe banner and Recommended Movies section

Expected Result: Home page loads with city Ahmedabad, promotional banner and Recommended Movies carousel.

Actual Result: Page loaded correctly with Krishna Broadway banner and Recommended Movies (including Dhamaal 4).

Status: Pass

Screenshot 1a – BookMyShow Home (Ahmedabad) with Recommended Movies

Scenario ID: 1b

Scenario: Open Sign in / Get Started modal

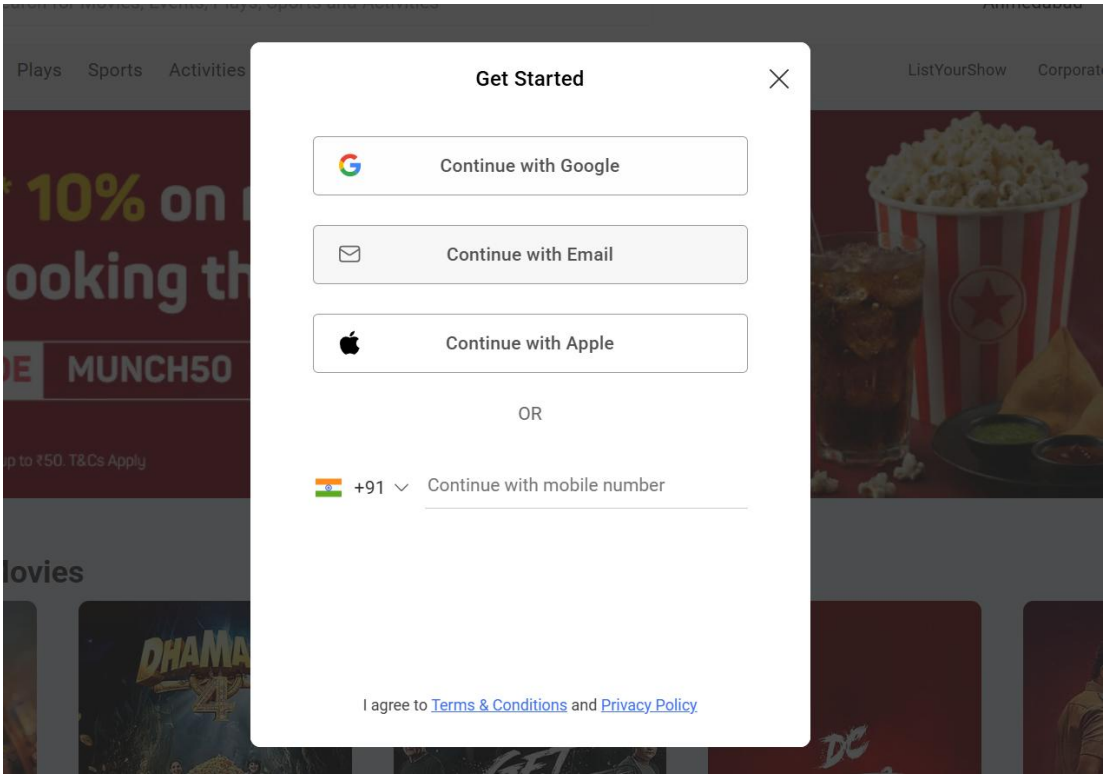

Test Steps:

1. Click Sign in on header
2. Observe Get Started modal options

Expected Result: Modal with Continue with Google, Email, Apple and mobile number (+91). Terms & Privacy links present.

Actual Result: Get Started modal opened with all expected login options and legal links.

Status: Pass

Screenshot 1b – Get Started / Sign in modal

Scenario ID: 1c

Scenario: Open movie details page for Dhamaal 4

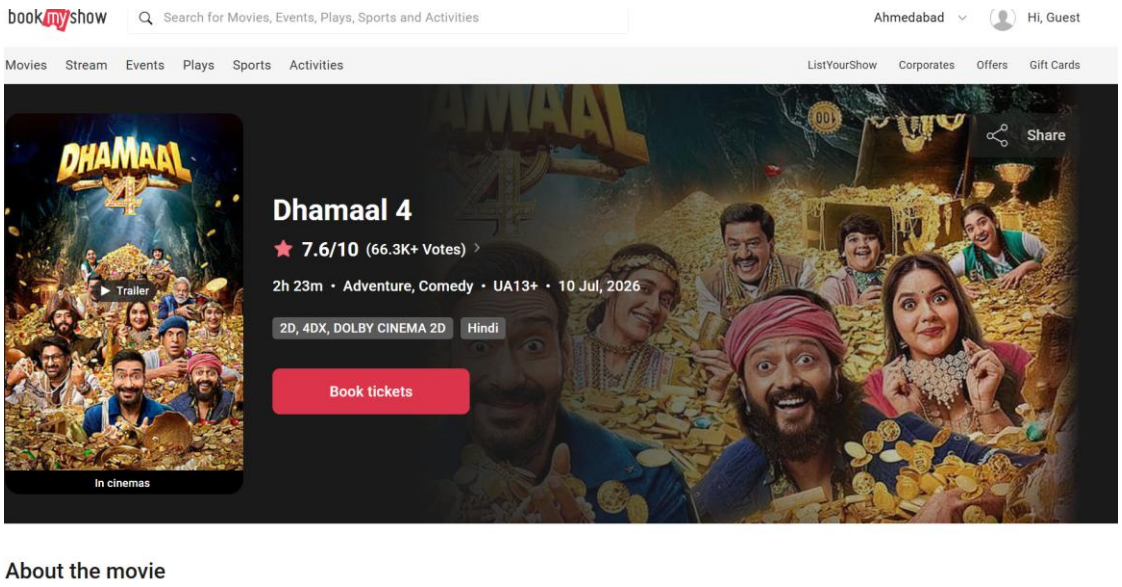

Test Steps:

1. Click Dhamaal 4 from Recommended Movies
2. Observe movie details page

Expected Result: Poster, title, rating, runtime, genres, language, formats and Book tickets button displayed.

Actual Result: Details page shows 7.6/10 rating, 2h 23m, Adventure/Comedy UA13+, Hindi, Book tickets button.

Status: Pass

Screenshot 1c – Dhamaal 4 movie details page

Scenario ID: 1d

Scenario: Select date, cinema and show time for Dhamaal 4

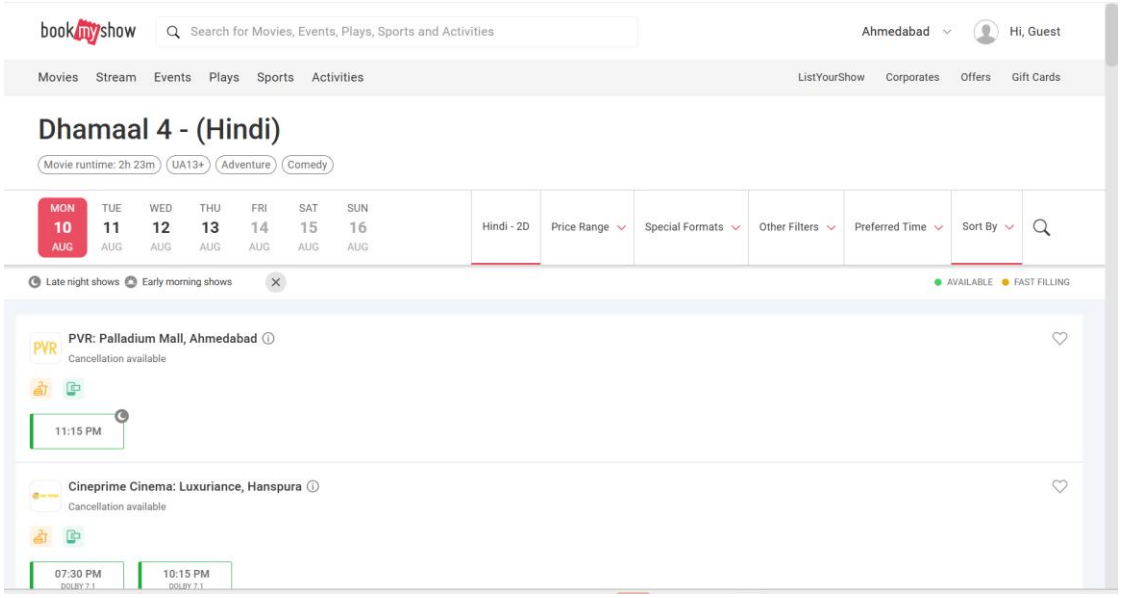

Test Steps:

1. Click Book tickets
2. Select date (Mon 10 Aug)
3. View cinemas and shows
4. Select 11:15 PM at PVR Palladium

Expected Result: Date strip, filters, cinema list with show times and availability indicators.

Actual Result: Date selector and filters present. PVR Palladium 11:15 PM and other cinemas listed with cancellation info.

Status: Pass

Screenshot 1d – Show listing (date, cinema, timings)

Scenario ID: 1e

Scenario: Select number of seats

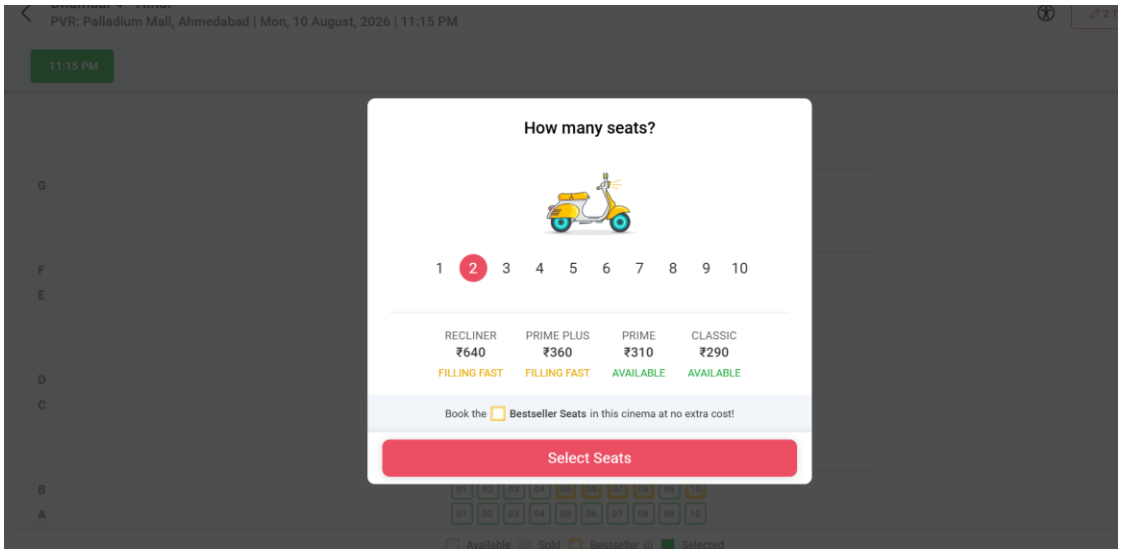

Test Steps:

1. After choosing show, ‘How many seats?’ popup appears
2. Select 2 seats
3. Observe category prices
4. Click Select Seats

Expected Result: Seat count 1–10, category prices with availability status, Select Seats button enabled.

Actual Result: Popup with 2 seats selected. Recliner/Prime/Classic prices and Filling Fast/Available status shown.

Status: Pass

Scenario ID: 1f

Scenario: View Food & Beverage (Grab a Bite) add-on page

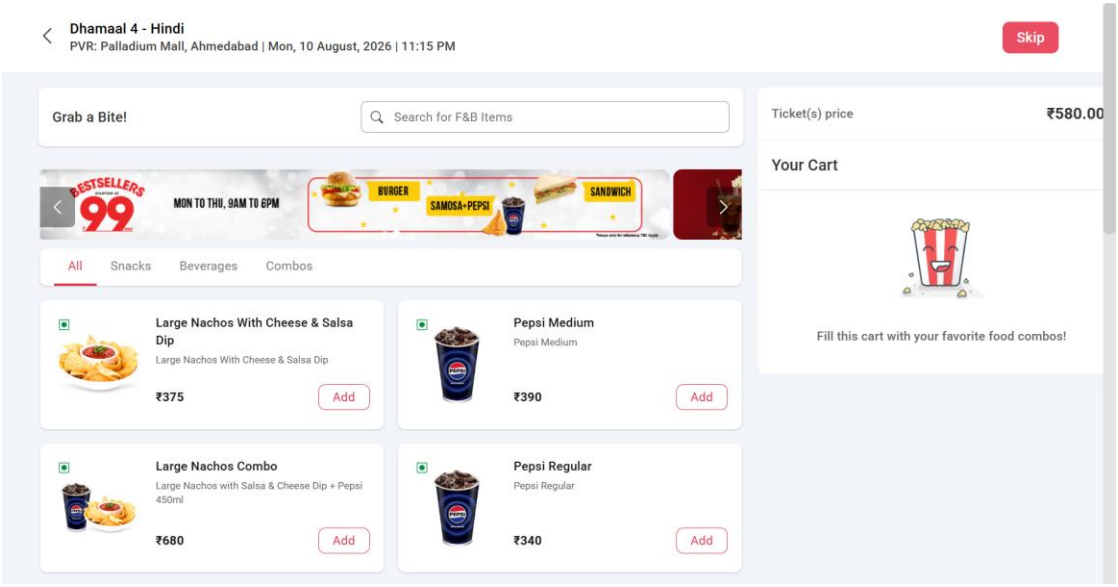

Test Steps:

1. Proceed to F&B page after seat selection
2. Observe categories and item cards
3. Check cart sidebar and Skip option

Expected Result: Grab a Bite page with categories, items, prices, Add buttons, ticket price in cart and Skip option.

Actual Result: Page loaded with items (Nachos, Pepsi etc.), ticket price ₹580, empty cart message and Skip button.

Status: Pass

Screenshot 1f – Grab a Bite (Food & Beverage) page

Scenario ID: 1g

Scenario: Enter Contact Details (Email & Mobile)

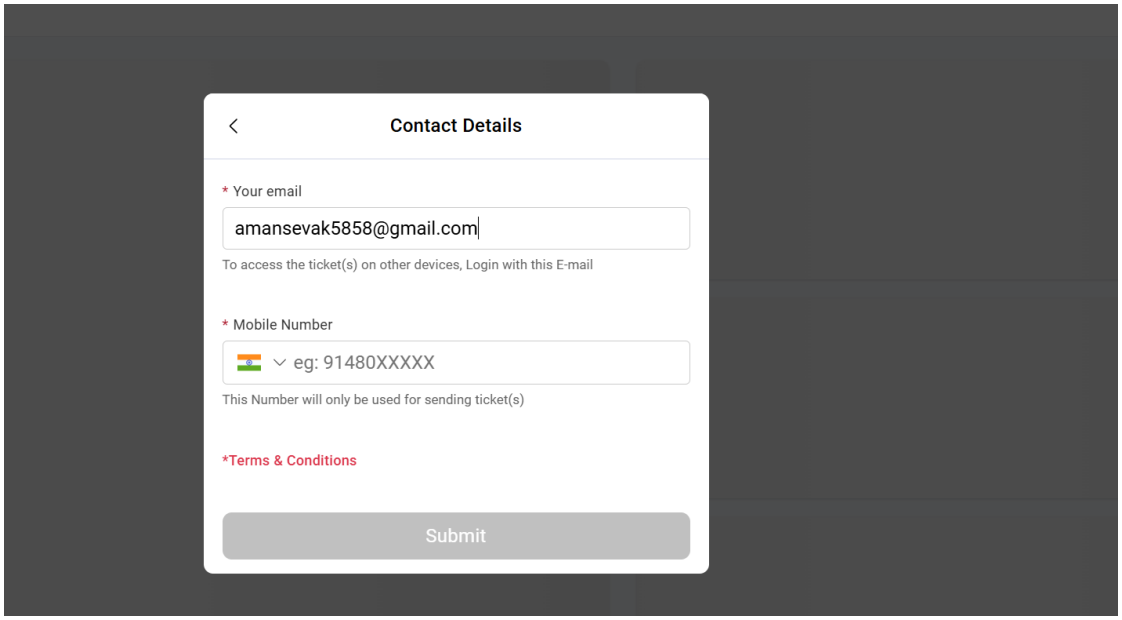

Test Steps:

1. Proceed to Contact Details
2. Enter/verify email and mobile
3. Observe Submit button state

Expected Result: Required Email and Mobile fields. Submit enabled only when fields are complete.

Actual Result: Modal with email filled, mobile placeholder, Terms note. Submit remains disabled until mobile is entered.

Status: Pass

Screenshot 1g – Contact Details form

Scenario ID: 1h

Scenario: View Payment options and order summary

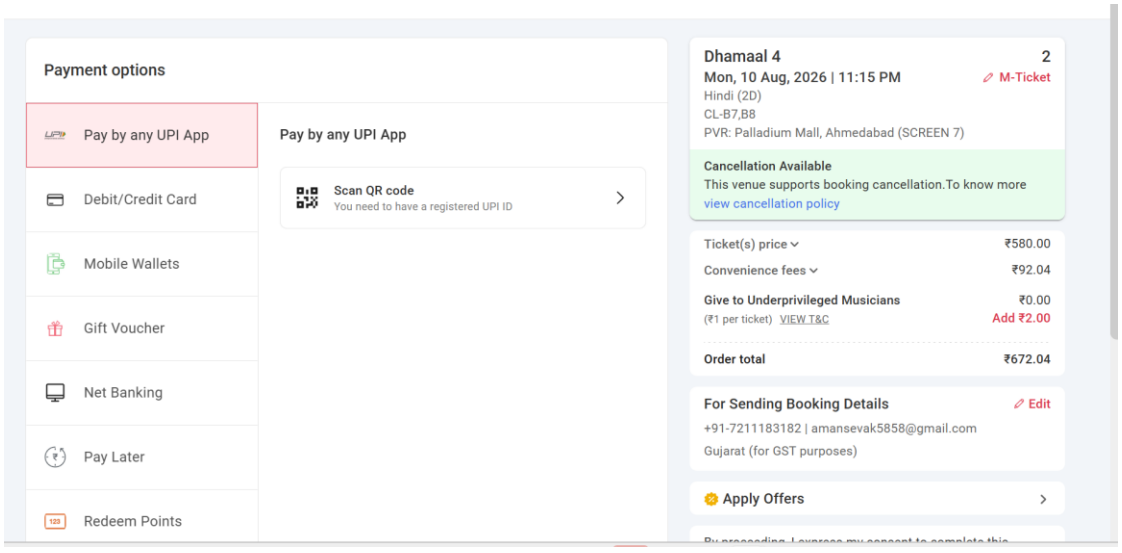

Test Steps:

1. Proceed to Payment page
2. Observe payment methods and right-side order summary

Expected Result: Multiple payment options, ticket price, convenience fees, total, cancellation info and contact details.

Actual Result: UPI/Card/Wallets etc. listed. Summary: ₹580 + ₹92.04 = ₹672.04. Cancellation Available, Apply Offers present.

Status: Pass

Summary Of Test Results

Metric	Value
Total Test Cases	8
Passed	8

Failed	0
Pass %	**100%**

Conclusion and Recommendations

Pass Rate: 100%. All executed test cases for the BookMyShow movie booking flow (home, sign-in, movie details, show selection, seat quantity, F&B, contact details, and payment) passed successfully.

No critical functional or UI defects were observed in the tested scenarios during this practical execution.

Recommendations:

1. Continue validating seat map accuracy under high concurrent load (fast-filling shows).
2. Ensure Contact Details Submit remains disabled until both email and mobile are valid.
3. Periodically verify convenience fee calculation and cancellation policy messaging.
4. Add clearer visual feedback when F&B items are added to cart (future enhancement testing).

Bug Reports

No bugs were identified in the 8 test scenarios executed for this practical. All features under test behaved as expected.
