Module Name: Login Page - Functional & UI Test Cases (Snapchat)

Test Case ID: st_01
Tester Name: Aman Sevak

Test Case Description: To validate the functionality of user login workflows on Snapchat's web login page, and UI/UX responsiveness.

Prerequisites: 1. Stable internet connection 2. Browsers for testing 3. Valid URL: https://accounts.snapchat.com 4. Test user credentials

Environment Information: OS: Windows / macOS System: Laptop Webpage URL: https://accounts.snapchat.com / https://www.snapchat.com

Scenario ID	Scenario	Test Steps	Test Input	Expected Results	Actual Results	Status	Comments
1a	Login with valid username/email	1. Open Snapchat login page 2. Enter valid Username or Email 3. Click Next 4. Enter valid Password 5. Click Next / Log In	Valid username (e.g., sevak1586) and correct password	User successfully logs in and lands on Snapchat dashboard / home	Login successful; redirected to Snapchat home page	Pass	Main positive login flow works correctly
1b	Login with wrong password	1. Open Snapchat login page 2. Enter valid Username 3. Click Next 4. Enter incorrect Password 5. Click Next	Valid username + wrong password	Error message shown: "Incorrect password, please try again."	Error displayed: "Incorrect password, please try again."	Pass	Password validation working as expected
1c	Login with empty username field	1. Open Snapchat login page 2. Leave Username or Email field blank 3. Click Next	Blank username / email field	Next button remains disabled or error shown asking for username/email	Next button does not proceed; field validation prevents empty submission	Pass	Empty field validation is present
1d	Login with empty password field	1. Enter valid Username 2. Click Next 3. Leave Password field blank 4. Click Next	Valid username + blank password	Next button remains disabled or error shown for empty password	Cannot proceed with empty password; validation works	Pass	Password required field validation working
1e	Check password visibility toggle (eye icon)	1. Enter valid Username 2. Click Next 3. Enter Password 4. Click eye icon beside password field	Any password text	Password becomes visible (unmasked) when eye icon is clicked; toggles back on second click	Password visibility toggles correctly via eye icon	Pass	Usability check for password input – working fine
1f	Forgot Password flow	1. Enter valid Username 2. Click Next 3. Click on "Forgot Password" 4. Follow verification steps (email confirm)	Valid registered username / email	System asks to confirm identity via email; verification code / link is sent	Redirected to "Confirm It's You" page; email verification flow starts	Pass	Forgot password flow works; identity confirmation required
1g	Login using Continue with Google	1. Open Snapchat login page 2. Click "Continue with Google" 3. Select / enter Google account 4. Grant permissions if prompted	Valid Google account linked or available	User is logged in successfully using Google account or redirected for account linking	Google login option is available and redirects to Google authentication	Pass	Social login option present and functional
1h	Check responsive layout of login form	1. Open Snapchat login page 2. Resize browser window or open on different screen sizes	Different viewport sizes (desktop / tablet / mobile)	Login form remains centered, readable and usable on all screen sizes	Form stays responsive and properly aligned	Pass	UI responsiveness test – layout adapts well
1i	Verify session after successful login (Dashboard access)	1. Login with valid credentials 2. Observe dashboard / profile page 3. Check username display and navigation options	Valid credentials	User lands on Snapchat web dashboard; profile name, search, chat, camera options visible	Dashboard loaded successfully showing username, Snapchat+ promo, and navigation	Pass	Post-login session and dashboard UI verified

Summary Of Test Results

Total Test Cas	9
Passed	**9**
Failed	0
Pass %	**100%**

Conclusion: All 9 test cases passed successfully. Snapchat login page functional and UI tests are working as expected.
